

The background image shows an outdoor swimming pool with a curved glass enclosure. The pool is filled with clear blue water. Behind the pool is a wall made of stacked, light-colored stones. To the right, there is a modern building with a flat roof and a large green patio umbrella. In the distance, there are green trees and a tall communication tower under a blue sky with scattered white clouds.

## POOL ENCLOSURES

Get the most out of your pool. More efficient, less expensive, and with no need to conform to the weather. Our wide range of shape and colour options will ensure that the enclosure blends in with your garden.

These days, pool enclosures are a must-have feature for pools - especially because of current weather conditions. The enclosure will prolong the pool bathing season considerably and increase the value of investing in the pool. The pool enclosure is resistant to water and dampness and is low-maintenance.

### BENEFITS

#### WATER QUALITY

Prevents water fouling, protects against dust, leaves and insects.

#### SAFETY

Prevents children or pets falling into the pool.

#### ENERGY SAVING

Reduces costs of water heating, prevents heat loss, helps to effectively heat the water - the "greenhouse effect".

#### SEASON EXTENSION

Prolongs the bathing season by several months and allows the use of the pool even in bad weather.

#### AESTHETICS

A wide range of shape and colour options of profiles and panelling.

### MODELS & DIMENSIONS

The individual enclosure models can be manufactured in the following segment dimensions:

#### SUPREME LINE

Width: 250-525 cm

Height: 25-120 cm \*

#### PREMIUM LINE

Width: 250-500 cm

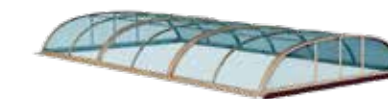

Height: 45-120 cm \*

#### PRO LINE

Width: 250-500 cm

Height: 80-190 cm \*

#### BASIC LINE

Width: 300-525 cm

Height: 75-120 cm\*

\* The maximum enclosure dimensions are indicative only, they depend on the number of segments and panelling material. We will gladly provide you with specific options upon request.

# SUPREME LINE

## FLAT AND ANGULAR DESIGN

A combination of modern design with sophisticated functionality. The flat track on one side allows easy access to the pool. In three different colours, they harmoniously fit in every garden.

## PRODUCT SERIES

We have designed the pool enclosure to meet today's needs, especially contemporary architectural trends. Both the form and the materials give the roof a luxurious, minimalistic style. The system is equipped with a single rail on one side which allows barrier-free access to the pool from 3 sides with minimal effort, thanks to its resilient and stable construction.

## CONSTRUCTION COLOUR OPTIONS

Anodised silver  
Aluminium

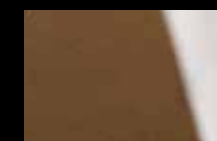

Anthracite RAL 7016

## PANELLING COLOUR OPTIONS

With double UV stabilisation, 4 or 6 mm:

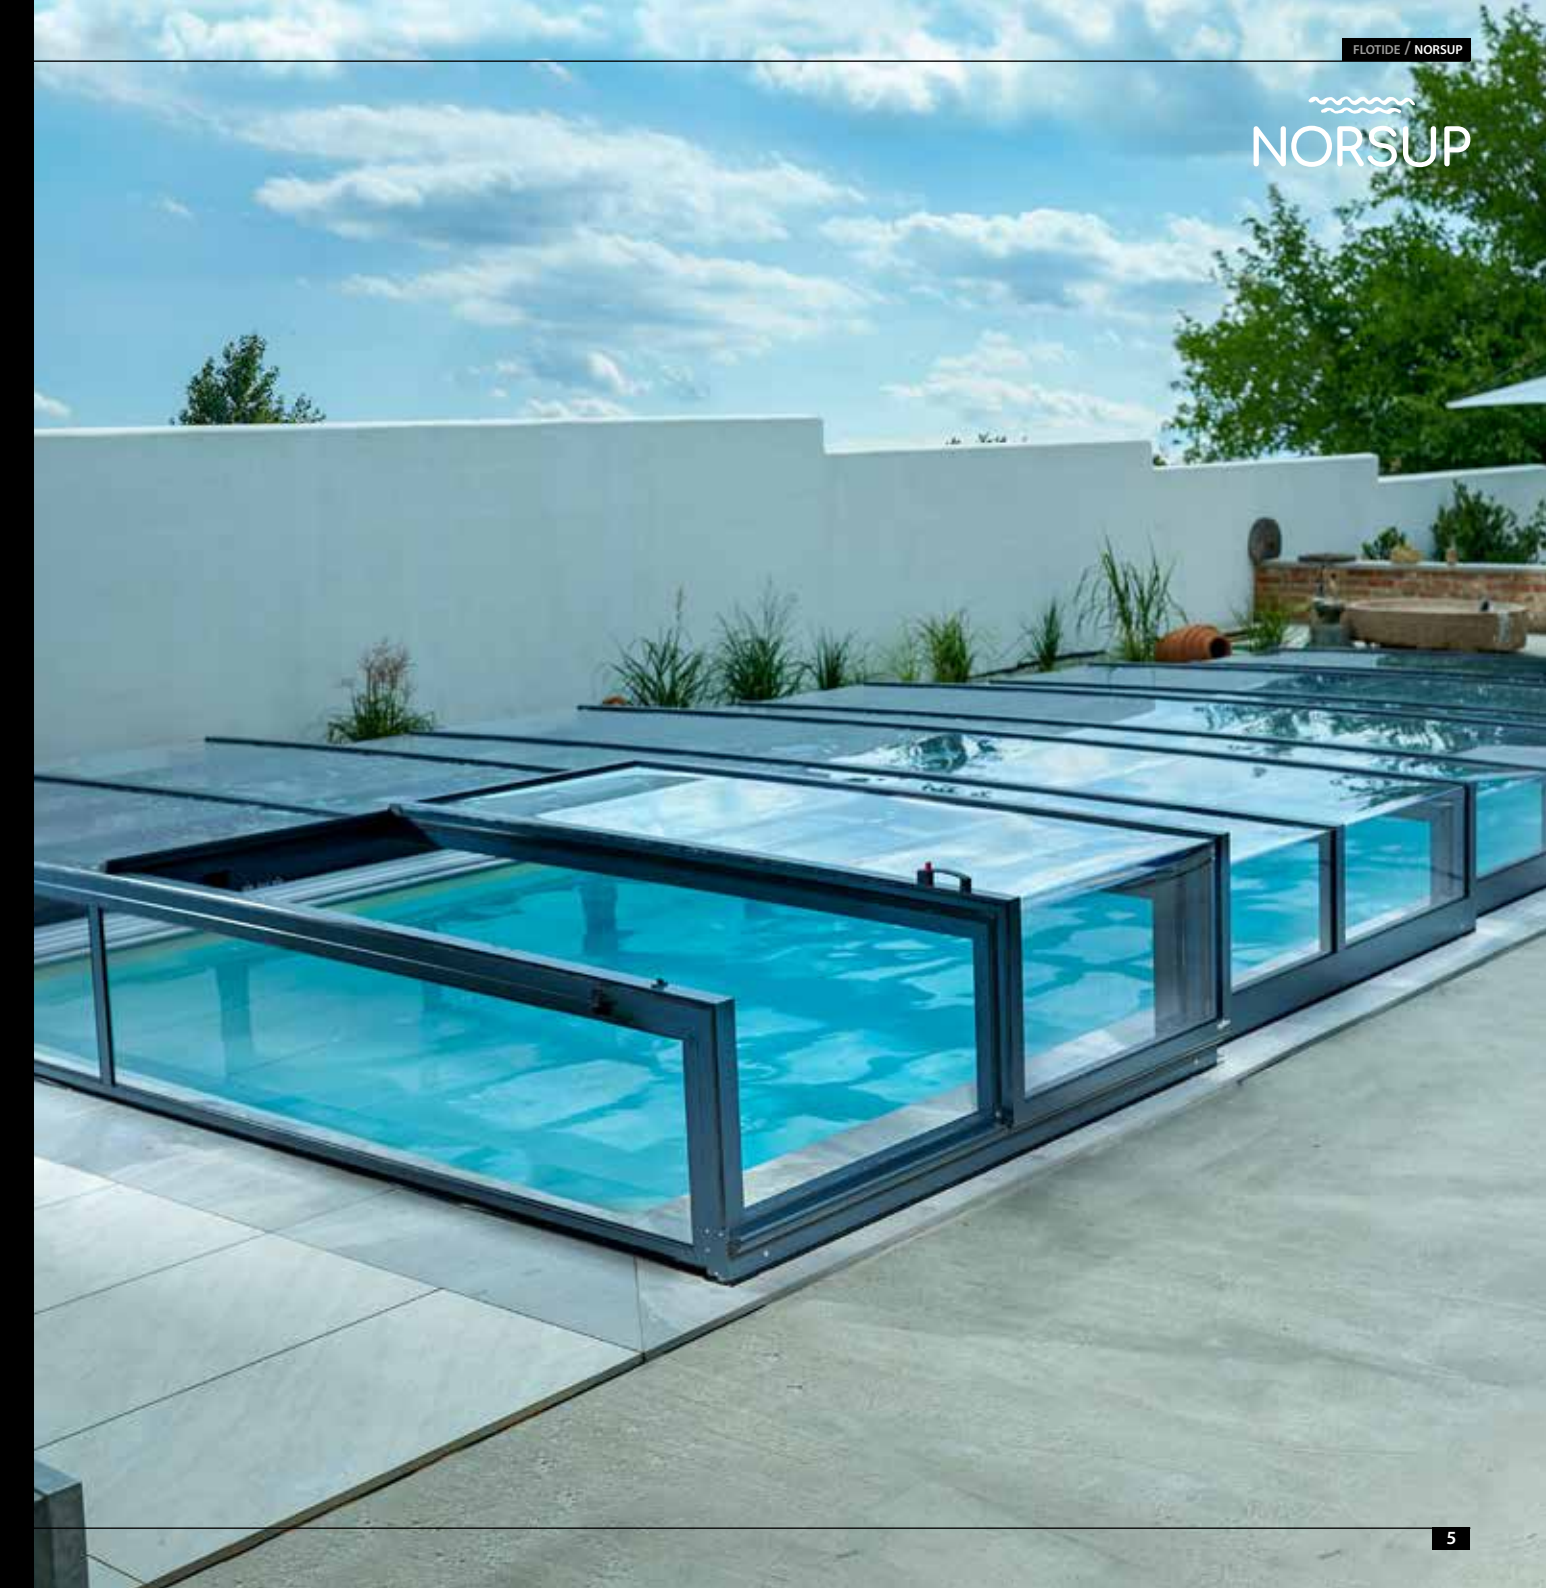

Transparent solid  
Polycarbonate 4/6 mm

Smoked solid  
Polycarbonate 4 mm

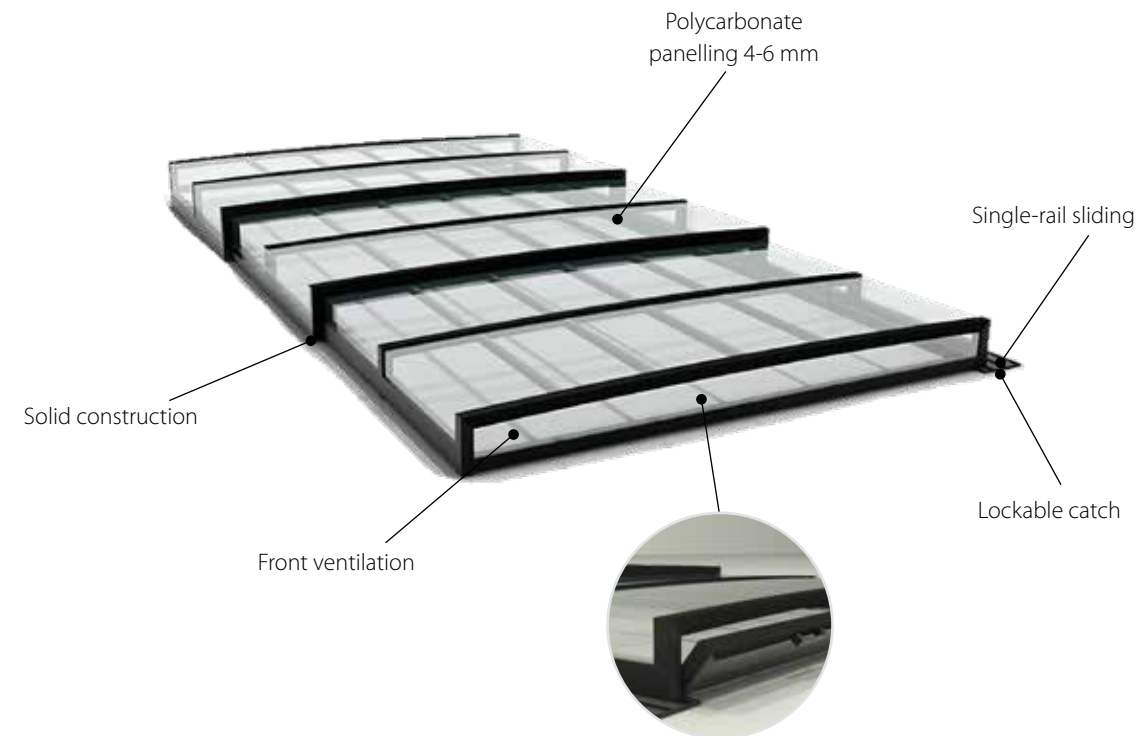

Solid grey  
Polycarbonate 4 mm

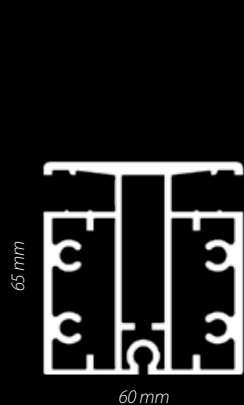

## ENCLOSURE ADVANTAGES

- Modern and sophisticated design
- Single-rail sliding
- High-level of stability
- Easy operation

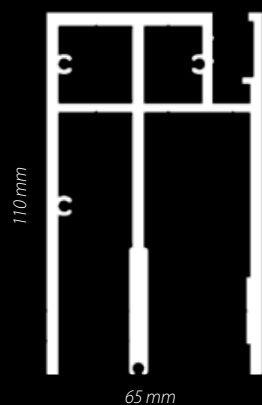

## MODERN AND SOPHISTICATED DESIGN

The Supreme Line enclosure offers clean and modern design and high-end features, thus increasing the value of your house and garden.

SUPPORT PROFILE

## SINGLE-RAIL SLIDING\*

The system is equipped with a single rail on one side which allows barrier-free access to the pool from 3 sides with minimal effort thanks to the substantial and stable construction.

*\* This model can be equipped with a rail on each side*

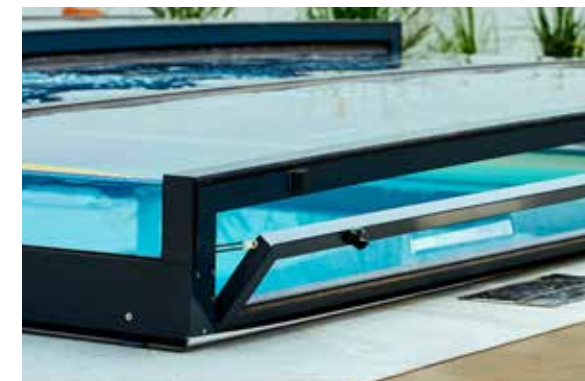

## LOCKABLE CATCH

The lockable catch increases the safety of the pool and keeps it protected even against extreme wind.

## FRONT VENTILATION

The practical low-maintenance front ventilation will ensure the necessary air circulation while maintaining safe entry into the pool.

## EASY OPERATION

Thanks to its substantial and stable construction and single-rail system, you may operate our enclosure with minimum effort. It is also possible to install an electric motor with a convenient remote control.

## SUPERIOR CONSTRUCTION STRENGTH

The combination of thick-walled profiles and polycarbonate panelling (4-6 mm) ensures a high level of stability.

## COLLECTOR OF INDIVIDUAL SEGMENTS

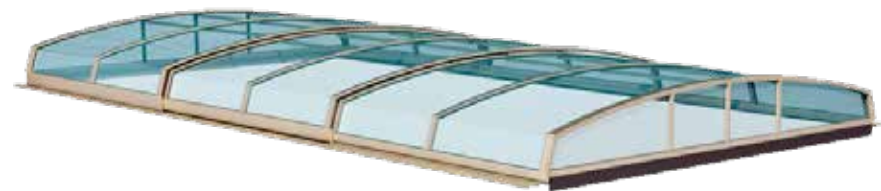

Our enclosure segments are telescopic. It is only necessary to manually unlock the outermost segment when extending or retracting the enclosure. Therefore, the operation of the enclosure is much easier and faster.

# PREMIUM LINE

## EMPHASIS ON DESIGN

The low profile of this enclosure with transparent glass edges will ensure an unimpeded view of the pool surroundings.

## PRODUCT SERIES

The Premium Line series offers a wide range of classic models from which you can choose, according to your needs.

### CONSTRUCTION COLOUR OPTIONS

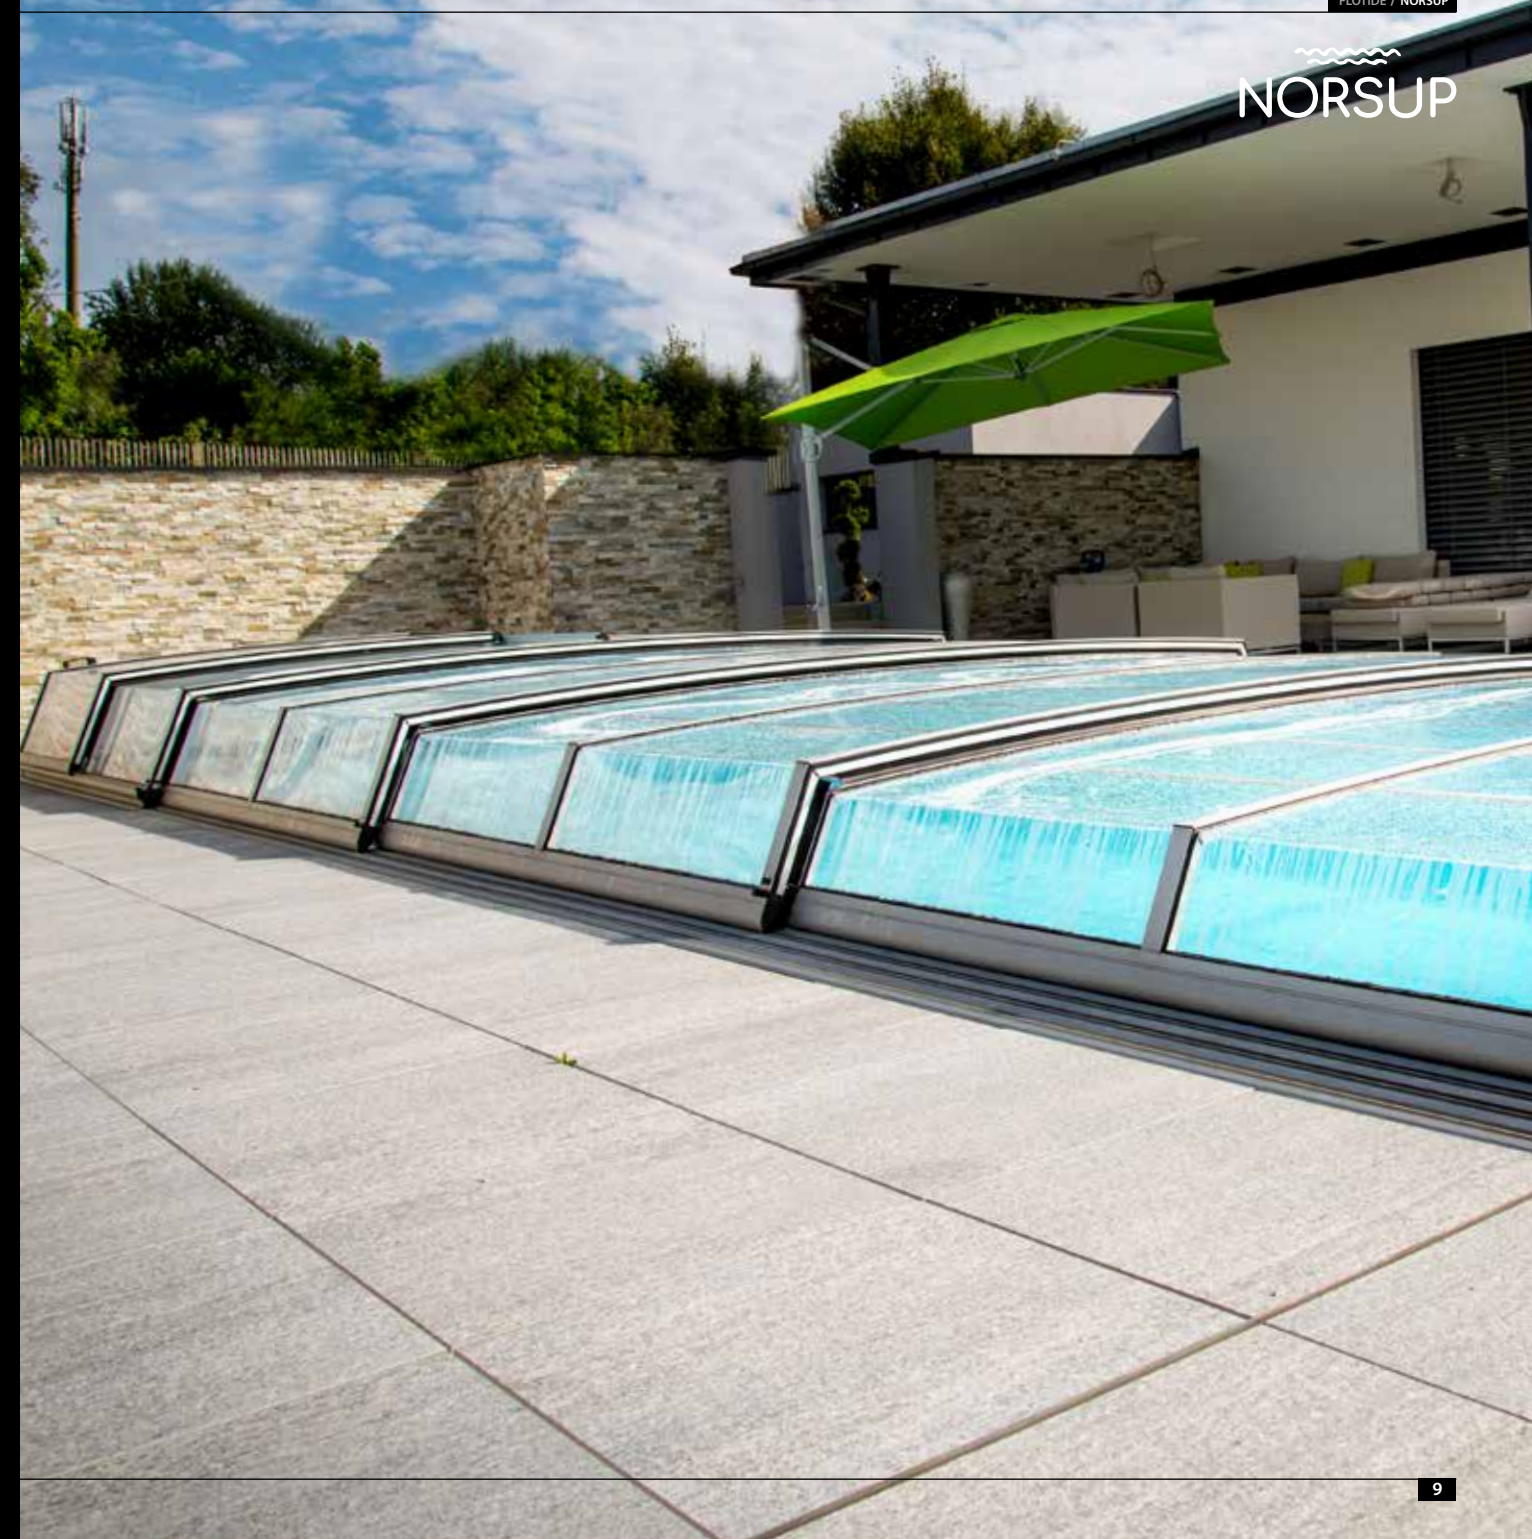

Anodised silver  
Aluminium

Anodised champagne  
Aluminium

Anthracite RAL 7016

## NEW CATCH AND COLLECTOR SYSTEM ON PREMIUM LINE ENCLOSURES

- **Faster and easier maintenance** - telescopic enclosure system facilitates easy movement of segments
- **An extremely stable and durable system**
- **Maximum flexibility and comfort** - after releasing the collectors, the segments can move in both directions independently

## CONSTRUCTION PANELLING OPTIONS

The panelling of the entire enclosure is made out of material from the world's leading manufacturer of extruded sheets, the Swedish company Arla Plast. Our polycarbonate is always equipped with double stabilisation against UV radiation.

Transparent  
unicameral  
Polycarbonate 10 mm

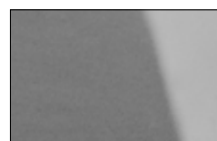

Smoked

Solid  
grey  
Polycarbonate 4 mm

## CONSTRUCTION PROFILES

The anodised aluminium profiles are extremely solid and durable. That is why we offer a 10-year warranty. The anodised surface finish of the profiles provides increased lifespan, stability and resistance to corrosion (natural effects, chemicals, or salt in the pool).

## SLIDING RAILS CONTINUOUSLY ACCESSIBLE

### EFFORTLESS EXTENSION AND RETRACTION

The sliding tracks and the entire sliding system are constructed with an emphasis on minimal resistance when handling the enclosure.

### LOWER THAN 15 mm

The flat accessible profile does not hinder the use of the pool when the enclosure is retracted.

### ANTI-SLIP SURFACE

Ensured by the anti-slip grating of the sliding rail top surface.

### ANODISED ALUMINIUM IN COLOUR OF ENCLOSURE

Anodised silver  
Aluminium

Anodised champagne  
Aluminium

### STAINLESS STEEL CATCHES

The Premium Line enclosure is now delivered with high quality stainless steel catches as standard.

### TELESCOPIC COVER SYSTEM

An exclusive solution, unique to the Premium Line. To move all cover segments, simply release the catches of the outermost segments.

### LOCKABLE AND COMPLETELY SAFE

The whole system can also be ordered in a lockable version. This option increases safety and protects the pool.

# PRO LINE

## TRUE CLASSIC

Simplicity and great strength are the main features of this classic style of enclosure. Its design is suitable even for heavy-snow weather conditions.

## PRODUCT SERIES

The Pro Line offers the most space with a height of up to 1.9 m. Thanks to the universal structure of the roof and the optional revolving door, it is also ideal for pools with access in the middle.

### CONSTRUCTION COLOUR OPTIONS

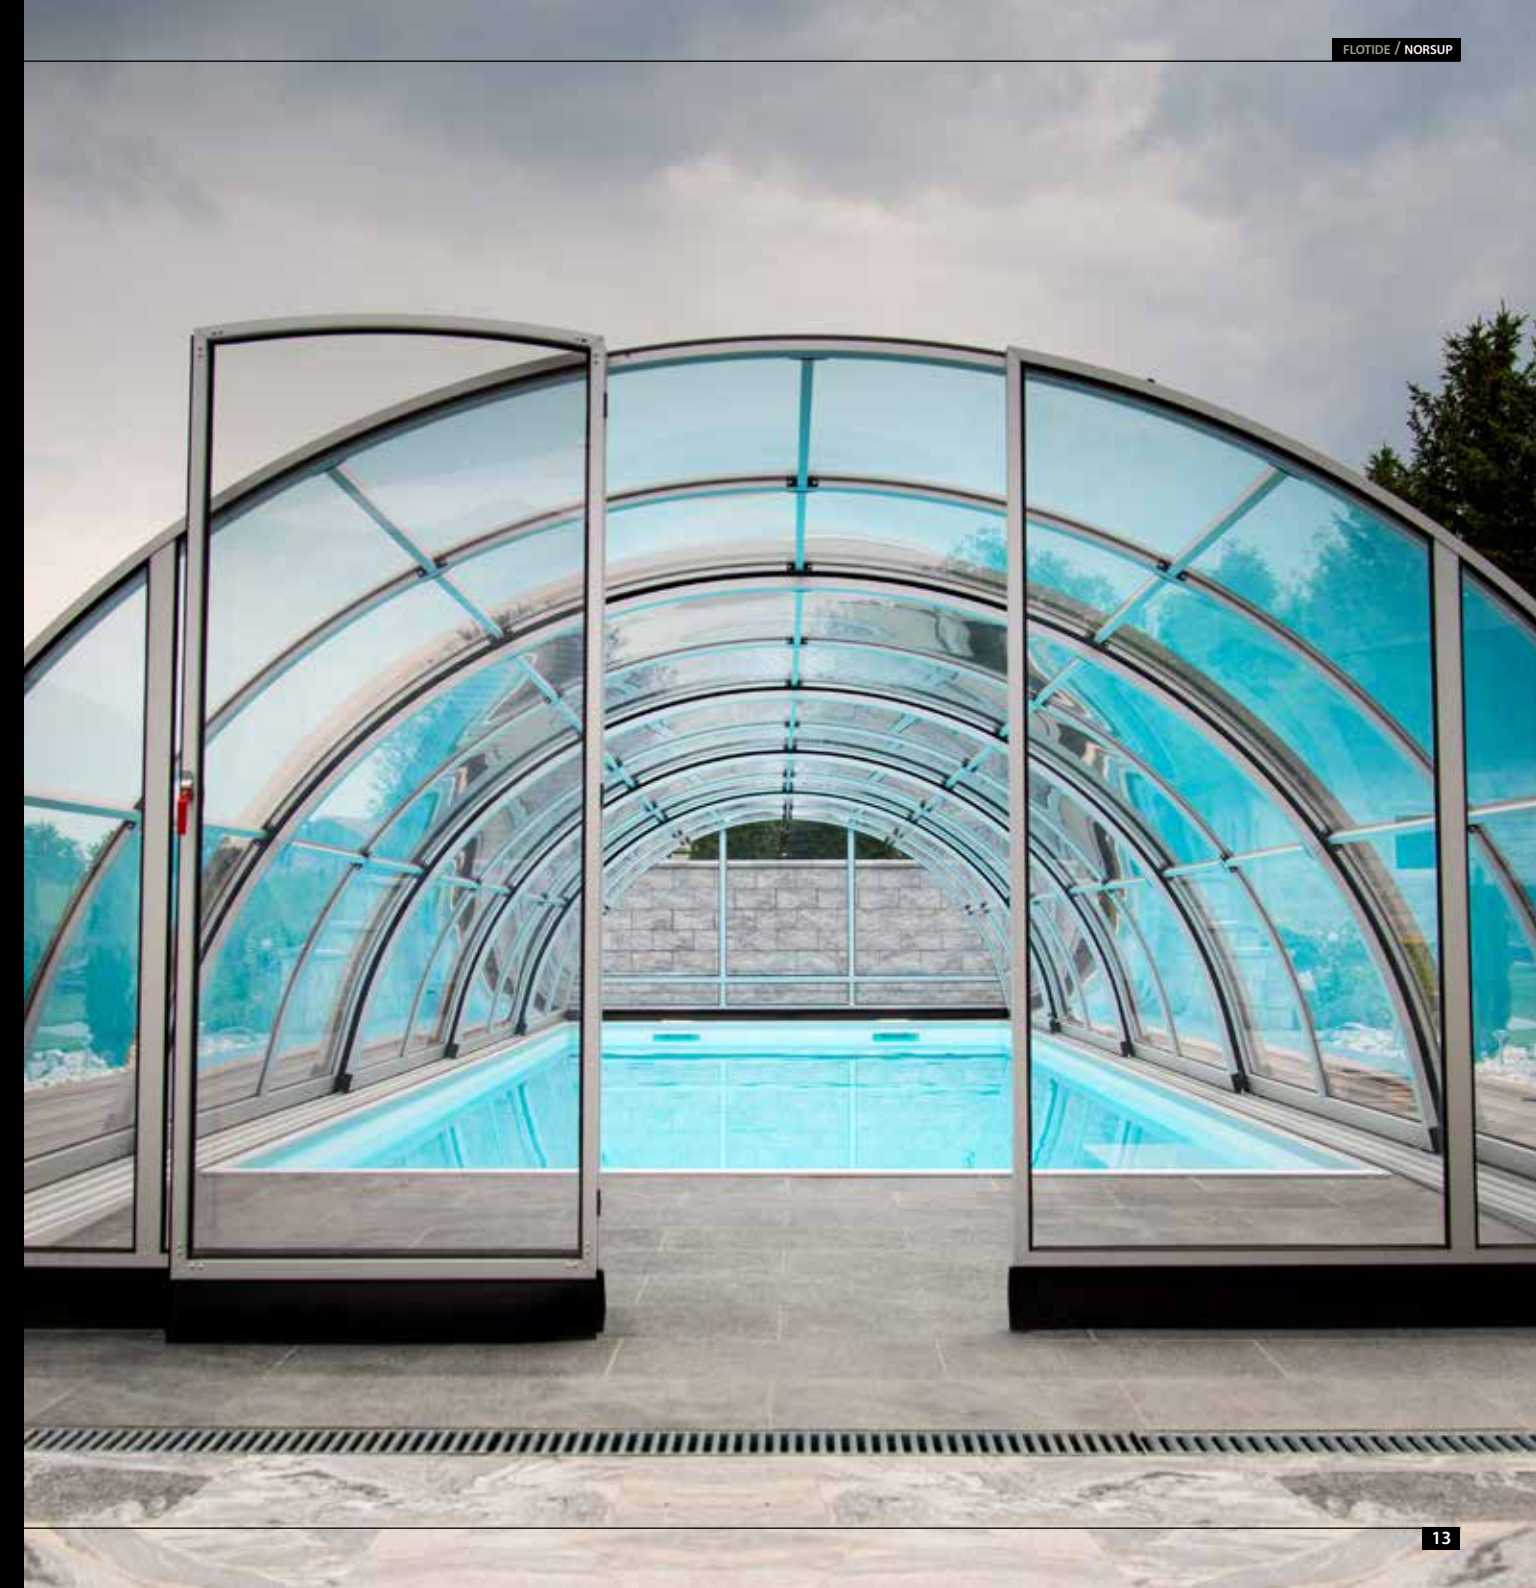

Anodised silver  
Aluminium

Anthracite powder  
coated RAL 7016

NORSUP

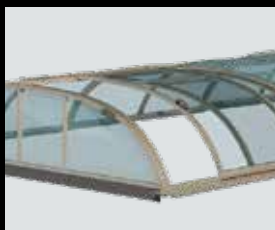

## ENCLOSURE ADVANTAGES

- Spacious and universal design
- Running rails on both sides (15 mm flat)
- High quality plastic rolls
- Glass fronts removable on both sides
- High quality castors

Revolving / sliding door

Ventilation flap

## BASIC LINE

### LOW LEVEL YET FUNCTIONAL

This discreet style of enclosure is suitable for situations when it is required not to disrupt an existing architecturally-balanced landscape of the garden and pool surroundings, while all advantages of an enclosed pool remain.

#### BASIC LINE ENCLOSURE ADVANTAGES

- Classic curved design
- Running rails on both sides (15 mm flat)
- High quality plastic rolls
- Glass fronts removable on both sides
- High quality castors

# SLIDING RAILS AUTOMATIC ENCLOSURE

## EXCLUSIVELY FROM NORSUP

Electronic sliding with smart remote control can be installed in addition to any type of manual pool enclosure.

## • MAXIMUM QUALITY

Electronic sliding ensures optimal retraction of individual segments.

## • MAXIMUM COMFORT

Electronic sliding of all segments with a single click of a button on your remote control.

## • MAXIMUM SAFETY

All segments lock automatically on sliding. The safety stop function ensures sliding will stop when encountering obstacles.
